

Westwinds COVID-19 Post Vaccination Survey

Introduction

In early 2021, the provincial government commenced COVID-19 vaccination of residents in Westwinds Communities lodge program.

Westwinds recognizes that many residents are experiencing COVID fatigue, and acknowledge that residents may wish more freedom following the second vaccination. While 90% of residents received the COVID-19 vaccine, very few employees were vaccinated (16%), and currently there is no program for vaccinating new residents. Also, there is considerable concern with the emergence of a COVID-19 variant in Alberta. Westwinds does not expect provincial restrictions for the lodge to change in the near future, and we have not received information on when staff will be vaccinated.

Westwinds Communities is seeking your input to consider changes in existing protocols to implement this spring. **We kindly appreciate your confidential feedback by completing the following survey by February 17, 2021.**
